

MAGNET S2

WEEKLY OSINT INTELLIGENCE SNAPSHOT

DTG: 260712-1200Z | Reporting Period: 6–12 July 2026 | United States Focus
www.magnethf.com

MAGCON STATUS

MAGCON LEVEL 3 ELEVATED

MAGCON HOLDS AT LEVEL 3 – ELEVATED; TREND SHIFTS TO WORSENING. The one-week US–Iran Hormuz de-escalation pause reported last cycle expired on approximately 6 July, and combat resumed within days. Iran's IRGC fired on multiple commercial vessels transiting the Strait of Hormuz on 6–7 July, prompting escalating US retaliation — CENTCOM struck roughly 80 Iranian targets on 8–9 July and approximately 140 targets on 11 July, its third round of strikes this week. On 11 July, Iran struck a Cyprus-flagged container ship, a Qatari-flagged LNG tanker, and a Saudi-flagged crude tanker near the strait, and formally declared the waterway closed; the IRGC separately struck Prince Hassan Air Base in Jordan, and the UAE reported responding to missile/drone threats. Lloyd's List Intelligence reports no large vessel has transited the US-coordinated southern route since 7 July. Oman has drafted a new two-corridor proposal (a toll-free southern route through Omani waters and an Iran-controlled northern route requiring prior Iranian approval, no tolls) — under discussion in Muscat as of 11 July but not finalized. Separately, the Israel–Lebanon Trilateral Framework is advancing: a US official says the first pilot zone in southern Lebanon will launch within days, with both sides returning to Rome for follow-on talks 15–16 July; Hezbollah's rejection stance is unchanged. Domestically, Senate Judiciary Chairman Lindsey Graham (R-SC) died suddenly on 11 July at age 71, and Senate Minority... (correction: Majority) leader-adjacent figure Sen. Mitch McConnell (R-KY) remains hospitalized for a fourth week with cause undisclosed — an unverified claim that he is “braindead” has circulated but is directly disputed by several senators who report recent phone contact with him. Four new critical/high-severity CISA KEV entries were added this cycle (Adobe ColdFusion, JoomShaper, Langflow, Joomla!); the SharePoint and SimpleHelp KEVs flagged last cycle remain active, unresolved risks. The PJM grid emergency flagged last cycle resolved without blackouts. The FIFA World Cup enters its semifinal round with no new security incident, though Iran's continued participation carries added sensitivity given the resumption of open combat.

TREND VS LAST WEEK: WORSENING — HORMUZ CEASEFIRE COLLAPSED / COMBAT RESUMED / STRAIT DECLARED CLOSED / ISRAEL-LEBANON IMPLEMENTATION ADVANCING / SEN. GRAHAM DECEASED / SEN. MCCONNELL HOSPITALIZATION ONGOING / FOUR NEW CRITICAL KEVs

PRIMARY RISK DRIVERS

- **NEW / WORSENING — Strait of Hormuz Ceasefire Collapse:** The one-week de-escalation pause expired ~6 July. IRGC fired on multiple commercial vessels 6–7 July; US retaliated with strikes on ~80 Iranian targets 8–9 July, then ~140 targets 11 July — the third round of US strikes this week. Iran struck a Cyprus-flagged container ship, a Qatari LNG tanker, and a Saudi-flagged crude tanker, then declared the strait closed. IRGC struck Prince Hassan Air Base, Jordan; UAE responded to missile/drone threats.

- **NEW — Oman Two-Corridor Hormuz Proposal:** Oman has drafted (not yet finalized) a plan for two separately controlled transit routes — a toll-free Southern Corridor through Omani waters under pre-war conditions, and a Northern Corridor through Iranian waters requiring prior Iranian approval but no tolls. Discussed in Muscat 11 July between Iranian FM Araghchi and Omani FM Albusaidi.
- **ADVANCING — Israel–Lebanon Trilateral Framework Implementation:** A US official says the first pilot zone in southern Lebanon will launch within days; both sides return to Rome 15–16 July for follow-on technical talks. Hezbollah’s rejection (“null and void”) is unchanged; no major new strikes confirmed this cycle.
- **NEW — Death of Sen. Lindsey Graham (R-SC):** Senate Judiciary Committee Chairman and prominent Trump ally died 11 July at age 71 following a “brief and sudden illness”; reports indicate a cardiac-arrest call to his residence. Confirmed by his office and multiple national outlets.
- **ONGOING — Sen. Mitch McConnell (R-KY) Hospitalization:** Now in a fourth week of hospitalization with cause undisclosed. An unverified claim that McConnell is “braindead”/on life support has circulated online; it is directly disputed by Sens. Thune and Barrasso and commentator Scott Jennings, who each report direct phone contact with him this past week.
- **NEW — Four Additional Critical CISA KEV Entries:** Adobe ColdFusion path traversal (CVE-2026-48282), JoomShaper SP Page Builder file upload (CVE-2026-48908), Langflow authorization bypass (CVE-2026-55255), and Joomla! Page Builder access control (CVE-2026-56290) were added to the KEV catalog ~7 July.
- **NO CHANGE — Delaney Hall, PJM Grid, Section 702:** The Delaney Hall hunger/labor strike remains reportedly ended with no new development. The PJM grid emergency flagged last cycle resolved without blackouts. Section 702 remains statutorily lapsed with no material change to the FISC-certification posture reported last cycle.
- **ONGOING — FIFA World Cup Semifinal Round:** No new confirmed security incident this cycle. Iran’s continued participation in the tournament carries elevated sensitivity given the resumption of open US-Iran combat; final scheduled 19 July at MetLife Stadium.

DELTA SUMMARY — CHANGES FROM LAST REPORT (260705-1200Z)

TOPIC	DELTA FROM 260705-1200Z / STATUS
Strait of Hormuz — Ceasefire Status	WORSENING — CEASEFIRE COLLAPSED, COMBAT RESUMED. One-week pause expired ~6 July. Iran fired on multiple ships 6–7 July; US struck ~80 then ~140 Iranian targets (8–9, 11 July). Iran declared strait closed 11 July after striking 3 vessels. Coordinated-route traffic near zero since 7 July — reverses last cycle’s “STABLE — PAUSED, NOT RESOLVED.”
Hormuz Toll/Fee Dispute	UPDATED. Oman has drafted a new two-corridor proposal (free Southern Corridor / Iran-approval-only Northern Corridor, no tolls), discussed in Muscat 11 July. Supersedes but has not resolved the prior Iran/Oman joint fee-administration proposal; not yet finalized by either side.
Israel–Lebanon Trilateral Framework	ADVANCING. Moving into implementation phase; first pilot zone in south Lebanon to launch “within days” per US official. Rome talks scheduled 15–16 July. Hezbollah rejection unchanged; no major new strikes confirmed.
Sen. Lindsey Graham (R-SC)	NEW. Died 11 July, age 71, “brief and sudden illness.” Senate Judiciary Chairman; key ally on Ukraine/Israel policy. Continuity implications for committee leadership during an active-conflict reporting cycle.
Sen. Mitch McConnell (R-KY)	ONGOING. Hospitalized since 14 June (4th week), cause undisclosed. Unverified “braindead” claim circulating — disputed by direct phone contact reported by Thune, Barrasso, Jennings. Marked X Not Confirmed pending official disclosure.

TOPIC	DELTA FROM 260705-1200Z / STATUS
CISA KEV — 4 New Entries	NEW. Adobe ColdFusion (CVE-2026-48282), JoomShaper SP Page Builder (CVE-2026-48908), Langflow (CVE-2026-55255), Joomla! Page Builder (CVE-2026-56290) added ~7 July.
CVE-2026-45659 SharePoint RCE / CVE-2026-48558 SimpleHelp	ONGOING — NO CHANGE. Both federal deadlines remain past-due; continue to treat any unpatched, internet-exposed instance as compromised.
Delaney Hall Hunger/Labor Strike	NO CHANGE. Independently corroborated (Wikipedia) as ended ~22 June following ICE/GEO retaliation. No new development this cycle; DHS maintains standing denial.
PJM Grid Reliability Emergency	RESOLVED / NO CHANGE. The 30 June–3 July emergency (Report 260702-2359Z) concluded without blackouts. No new PJM emergency declared this cycle.
FIFA World Cup	ONGOING. Semifinal round underway; final 19 July at MetLife Stadium. No new confirmed security incident. Elevated sensitivity given Iran's participation amid resumed combat.
Section 702 Lapse	NO CHANGE. Statutorily lapsed since 12 June; FISC certifications (March 2026) keep collection/compliance obligations in force through ~March 2027.

NO CHANGE

- MAGCON level holds at 3 – ELEVATED (trend revised to WORSENING)
- Bab el-Mandeb / Red Sea stable at ELEVATED — Houthi posture unchanged
- Converse Reservoir IED (Mobile, AL) — FBI investigation ongoing, no arrest, no confirmed motive
- GKN Aerospace Garden Grove, CA groundwater contamination testing — results still pending
- Canvas LMS breach phishing risk window — continues through mid-August
- CISA CI Fortify initiative — ongoing
- Section 702 — statutorily lapsed, FISC certifications in force through ~March 2027
- Delaney Hall — strike status remains "reportedly ended"; NJ AG lawsuit against GEO Group remains active

SECTOR THREAT LEVELS

SECTOR	LEVEL	NOTES
Terrorism / Extremism	ELEVATED	IRGC strikes on Jordan base and expanding regional strike pattern raise retaliatory/lone-actor risk. FIFA World Cup carries added sensitivity with Iran's continued participation amid resumed combat. Watch funeral-adjacent succession dynamics in Iran.
Cyber Activity	ELEVATED	Four new critical/high KEVs this cycle (ColdFusion, JoomShaper, Langflow, Joomla!). SharePoint RCE and SimpleHelp RMM auth bypass (CVSS 10.0) remain active, unresolved risks from last cycle.
Critical Infrastructure	ELEVATED	PJM grid emergency from last cycle resolved without blackouts. SimpleHelp compromise remains a live MSP/CI supply-chain concern. Converse Reservoir IED investigation ongoing.

SECTOR	LEVEL	NOTES
Energy / Fuel Sector	WORSENING	Reverses last cycle's "stable" assessment. Ceasefire collapse, strait closure declaration, and tanker strikes have driven coordinated-route transit to near zero since 7 July — a sharper disruption than the pre-pause baseline (~34/day).
Education Sector	ELEVATED	No change. Canvas breach phishing risk continues through mid-August.
Civil Unrest	ELEVATED	No change from last cycle. Delaney Hall strike status remains "reportedly ended," independently corroborated. Watch for recurrence/spread at other ICE facilities (Tacoma, Alvarado TX, Adelanto CA, Phillipsburg PA, Baldwin MI).
Transportation Systems	WORSENING	Hormuz combat resumption directly disrupts maritime transit; FIFA World Cup travel surge continues across 11 US host cities through the 19 July final.
Supply Chain / Logistics	WORSENING	Hormuz shipping collapse reintroduces near-term global energy supply-chain risk after last cycle's brief improvement. SimpleHelp RMM compromise remains an active MSP supply-chain risk.
Mass Gatherings / Public Safety	ELEVATED	FIFA World Cup semifinal round underway, final 19 July at MetLife Stadium; no new incident this cycle, but Iran's participation amid resumed combat is a heightened watch item.

GLOBAL CHOKEPOINT WATCH

CHOKEPOINT	STATUS	ASSESSMENT
Strait of Hormuz	CRITICAL	Upgraded from ELEVATED. Ceasefire collapsed ~6 July; active US-Iran strikes resumed (3 rounds this week, ~140 targets 11 July). Iran declared the strait closed 11 July after striking 3 commercial vessels. No large vessel has transited the US-coordinated southern route since 7 July per Lloyd's List. Oman's two-corridor proposal remains unfinalized. Do not transit without current TRANSCOM/JMIC guidance.
Bab el-Mandeb / Red Sea	ELEVATED	Stable. Houthi threat posture unchanged. No significant new incidents this cycle.
Panama Canal	ROUTINE	Stable. Normal operations.
Strait of Malacca	ELEVATED	SE Asia energy stress likely to re-intensify given the renewed Hormuz disruption; monitor closely given the sharper-than-expected reversal this cycle.

KEY INCIDENTS

US–IRAN HORMUZ CEASEFIRE COLLAPSE — COMBAT RESUMED (6–12 JULY)

The one-week Hormuz de-escalation pause reported last cycle — tied to America's 250th anniversary and Ali Khamenei's funeral — expired around 6 July without extension. Iran's IRGC fired on multiple commercial vessels on the night of 6–7 July; the UK Maritime Trade Operations Center separately reported a tanker struck and set afire off Oman. The United States retaliated with escalating strikes: approximately 80 Iranian targets, including more than 60 IRGC boats, on 8–9 July, then approximately 140 targets on 11 July — the third round of US strikes within the week.

Iranian parliamentary speaker and chief negotiator Mohammad Bagher Qalibaf warned publicly: "If you strike, you'll get hit," while CENTCOM issued a public "fact check" on 9 July reasserting that Iran does not control the strait and that US-facilitated transits had moved over 800 vessels and 380 million barrels of crude since May.

On 11 July, Iran struck three vessels within roughly 24 hours — a Cyprus-flagged container ship (one crew member missing), a Qatari-flagged LNG tanker, and a Saudi-flagged crude tanker — and formally declared the strait closed to shipping using "unauthorized routes." The IRGC separately struck Prince Hassan Air Base in Jordan; the UAE reported responding to missile and drone threats. Lloyd's List Intelligence data shows no large vessel (10,000+ dwt) has transited the US-coordinated southern route with AIS active since 7 July, a sharp reversal from the 108 verified crossings recorded the prior weekend (still below the ~120–140/day pre-war baseline). Oman has drafted a new two-corridor proposal — a toll-free Southern Corridor through Omani waters under pre-war conditions, and a Northern Corridor through Iranian waters requiring prior Iranian approval but no tolls — discussed 11 July in Muscat between Iranian FM Araghchi and Omani FM Albusaidi; the plan remains unfinalized. Assessment: this is a genuine escalatory reversal, not a continuation of last cycle's pause — three rounds of US strikes in one week indicates an active exchange rather than an isolated flare-up, and the near-total collapse of coordinated-route traffic is a materially worse energy/maritime posture than the "paused, not resolved" assessment carried last cycle.

ISRAEL–LEBANON TRILATERAL FRAMEWORK — MOVES TOWARD IMPLEMENTATION

The Israel–Lebanon–US Trilateral Framework signed 26 June is advancing into an implementation phase. A US official told reporters the first pilot zone in southern Lebanon — where Hezbollah forces and infrastructure are to be removed, allowing Lebanese Armed Forces to assume control — will launch "in a matter of days," with additional pilot zones being mapped. Israeli Ambassador to the US Yechiel Leiter announced Israeli and Lebanese officials will resume talks in Rome on 15–16 July to hand off technical work to working-level teams. Lebanon has reportedly conditioned its participation on Israel fulfilling its pledge to withdraw from the initial pilot zones. Hezbollah's rejection of the framework as "null and void" remains unchanged, and no major new Israeli strikes on Lebanon were confirmed this cycle. Assessment: this is incremental forward movement rather than resolution — the first concrete test will be whether LAF forces actually enter and hold a pilot zone without incident.

DEATH OF SEN. LINDSEY GRAHAM (R-SC)

Sen. Lindsey Graham, Chairman of the Senate Judiciary Committee and a close ally of President Trump on foreign policy (Ukraine, Israel, Iran), died 11 July 2026 at age 71 following what his office described as a "brief and sudden illness"; multiple outlets report emergency personnel responded to a cardiac-arrest call at his residence. Confirmed by his office and widely reported (NBC, Fox, CBS, NPR, CBC, France24, Al Jazeera). Assessment: beyond the personal loss, this raises near-term Senate Judiciary Committee leadership-succession questions and removes a key voice on pending national-security legislation during an active-conflict reporting cycle; watch for committee reassignment and any effect on confirmation or oversight schedules.

SEN. MITCH MCCONNELL (R-KY) — EXTENDED HOSPITALIZATION, UNCONFIRMED CLAIMS

Sen. Mitch McConnell has now been hospitalized for a fourth week (since 14 June), with his office declining to disclose either the cause of admission or his current condition beyond stating he "continues to improve" and remains engaged with staff. The information vacuum has produced online speculation, including an unverified claim — amplified by a fringe activist account and echoed by at least one reporter — that McConnell is "braindead" and on life support. This claim is directly disputed: commentator Scott Jennings, Senate Majority Leader John Thune, and Senate GOP Whip John Barrasso have each separately reported direct phone conversations with McConnell within the past week, on topics ranging from Iran/Ukraine policy to Senate business. CNN footage reportedly shows McConnell loaded into an ambulance on a stretcher the morning of 14 June. Assessment: per this cycle's Verified Status standard, the "braindead" claim is marked NOT CONFIRMED and should not be repeated as fact; the confirmed picture is an unusually long, undisclosed hospitalization with no vote cast since 11 June, occurring during a narrow-majority period with pending NDAA and appropriations work.

CARRYOVER — DELANEY HALL / PJM GRID / FIFA WORLD CUP

No material change this cycle on three items flagged previously. The Delaney Hall hunger/labor strike remains reportedly ended (independently corroborated via Wikipedia's facility entry); the NJ AG lawsuit against GEO Group over health-inspector access remains active with no ruling. The PJM grid reliability emergency (Report 260702-2359Z) concluded without blackouts as the national heat wave eased. The FIFA World Cup has entered its semifinal

round with no new confirmed security incident; the 19 July final at MetLife Stadium remains the standing high-visibility watch item, now carrying added sensitivity given Iran's continued participation amid the resumed Hormuz combat.

CYBER / INFRASTRUCTURE KEV BULLETIN

PATCH-IMMEDIATELY TABLE

CVE / SYSTEM	SEVERITY	ACTION REQUIRED
CVE-2026-48282 Adobe ColdFusion (Path Traversal)	HIGH	NEW — Added to CISA KEV ~7 July. Apply Adobe's security patch immediately; audit for unauthorized file access on internet-facing ColdFusion servers.
CVE-2026-48908 JoomShaper SP Page Builder (Unrestricted File Upload)	CRITICAL	NEW — Added ~7 July. Unauthenticated attacker can upload arbitrary files, including PHP, for remote code execution. Patch or disable the plugin immediately on any WordPress/Joomla-adjacent site running it.
CVE-2026-55255 Langflow (Authorization Bypass via User-Controlled Key)	CRITICAL	NEW — Added ~7 July. Authenticated attacker can execute another user's AI workflow by specifying their flow ID. Patch immediately; audit flow-execution logs for cross-tenant access.
CVE-2026-56290 Joomla! Page Builder (Improper Access Control)	HIGH	NEW — Added ~7 July. Apply vendor patch immediately; review access logs for unauthorized configuration changes.
CVE-2026-45659 Microsoft SharePoint Server (RCE)	HIGH	ONGOING — CVSS 8.8. Federal deadline (4 July) passed. Authenticated Site Member-level attacker can achieve RCE. Apply the May 2026 patch if not already done.
CVE-2026-48558 SimpleHelp RMM (OIDC Auth Bypass)	CRITICAL	ONGOING — CVSS 10.0. Federal deadline (2 July) passed. Actively exploited to deploy TaskWeaver/Djinn Stealer in an MSP supply-chain campaign. Upgrade to 5.5.16/6.0 RC2; audit all Technician accounts.
Fortinet "FortiBleed" (70,000+ devices)	HIGH	ONGOING WATCH — Not a formal KEV; intelligence-confirmed mass exploitation. Patch, hunt, and rotate all Fortinet VPN credentials if not already completed.

EMERGING INDICATORS

- Watch: Oman's two-corridor Hormuz proposal — whether Washington and Tehran formally accept, reject, or counter-propose will determine whether this cycle's escalation becomes the new baseline or a step toward a renewed pause.
- Watch: Further US-Iran strike rounds — three rounds in one week suggests an active escalatory cycle rather than an isolated incident; monitor for a fourth round or a reciprocal pause announcement.
- Watch: Israel-Lebanon pilot zone launch and the 15–16 July Rome talks — the first concrete test of LAF deployment into a pilot zone would be a significant implementation milestone.
- Watch: Sen. McConnell's health status — any official disclosure of cause/prognosis, or any further unverified claims, given the vacuum has already produced one disputed rumor this cycle.

- Watch: Senate leadership/committee continuity following Sen. Graham's death — Judiciary Committee chairmanship succession and any effect on pending nominations or NDAA/appropriations timelines during a narrow-majority period.
- Watch: SimpleHelp and SharePoint exploitation scope — both remain unresolved from last cycle; watch for confirmed ransomware deployment or new victim disclosures.
- Watch: FIFA World Cup semifinal/final security posture (through 19 July) — no incident this cycle does not reduce the standing threat assessment, and Iran's participation now carries added sensitivity.
- Watch: Converse Reservoir IED and GKN Garden Grove groundwater results — both remain open with no material update this cycle.

VERIFIED STATUS

- ✓ **CONFIRMED** Iran's IRGC fired on multiple commercial vessels in the Strait of Hormuz 6–7 July, unraveling the prior de-escalation pause. (Axios, UK Maritime Trade Operations — 7 July 2026)
- ✓ **CONFIRMED** US retaliated with strikes on ~80 Iranian targets 8–9 July, then ~140 targets 11 July — the third round of strikes this week. (CNN, RFE/RL — 9, 11 July 2026)
- ✓ **CONFIRMED** Iran struck a Cyprus-flagged container ship, a Qatari-flagged LNG tanker, and a Saudi-flagged crude tanker, and declared the Strait of Hormuz closed on 11 July. (CNN — 11 July 2026)
- ✓ **CONFIRMED** IRGC struck Prince Hassan Air Base in Jordan; UAE reported responding to missile/drone threats. (CNN — 11 July 2026)
- ✓ **CONFIRMED** No large vessel has transited the US-coordinated southern Hormuz route with AIS on since 7 July. (Lloyd's List Intelligence via Al Jazeera — 10 July 2026)
- ✓ **CONFIRMED** Oman has drafted (not finalized) a two-corridor Hormuz transit proposal; discussed in Muscat 11 July between Iranian and Omani foreign ministers. (CNN, Fortune — 11 July 2026)
- ✓ **CONFIRMED** Israel-Lebanon talks to resume in Rome 15–16 July; first pilot zone in south Lebanon to launch "within days" per a US official. (JNS — 7 July 2026)
- ✓ **CONFIRMED** Sen. Lindsey Graham (R-SC) died 11 July 2026 at age 71 following a "brief and sudden illness." (NBC News, Fox News, CBS News, NPR, CBC, France24, Al Jazeera — 12 July 2026)
- ✓ **CONFIRMED** Sen. Mitch McConnell (R-KY) has been hospitalized since 14 June 2026, now in a fourth week, with cause undisclosed. (CNN, Washington Post — 6–7 July 2026)
- ✓ **CONFIRMED** Sens. Thune and Barrasso and commentator Scott Jennings each report direct recent phone contact with Sen. McConnell, disputing claims of incapacitation. (Forbes, CNN — 7–9 July 2026)
- ✓ **CONFIRMED** CISA added four new vulnerabilities to the KEV catalog this cycle: CVE-2026-48282, -48908, -55255, -56290. (CISA.gov — 7 July 2026)
- ✓ **CONFIRMED** Delaney Hall hunger/labor strike ended ~22 June following facility retaliation actions. (Wikipedia, corroborating Jersey Vindicator reporting — accessed 12 July 2026)
- ✗ **NOT CONFIRMED** Claim that Sen. McConnell is "braindead" or on life support — circulated by a fringe activist account; directly disputed by multiple senators' reports of recent phone contact.
- ✗ **NOT CONFIRMED** Cause of Sen. Graham's death beyond the office's description of a "brief and sudden illness."
- ✗ **NOT CONFIRMED** Whether Oman's two-corridor Hormuz proposal has been accepted by either the US or Iran — discussions ongoing as of DTG, not finalized.
- ✗ **NOT CONFIRMED** US-Iran broader MOU/final peace agreement signed. Underlying toll dispute and Lebanon linkage remain unresolved, now compounded by renewed combat.
- ✗ **NOT CONFIRMED** Hezbollah disarmament under the Israel-Lebanon framework has begun. No confirmed LAF deployment into "pilot zones" as of DTG.

- **X NOT CONFIRMED** DHS acknowledgment of a Delaney Hall hunger strike having occurred. DHS maintains its standing denial.
- **X NOT CONFIRMED** GKN Garden Grove groundwater contamination results. Testing ongoing, no results published.
- **X NOT CONFIRMED** Converse Reservoir IED suspect or motive. FBI investigation ongoing, no arrest.

OPERATOR GUIDANCE

- → **HORMUZ TRANSIT — SUSPEND ROUTING PENDING CURRENT GUIDANCE:** Military action has resumed and Iran has declared the strait closed. Do not transit based on last cycle's pause assessment. Verify current TRANSCOM/JMIC guidance before any Hormuz-adjacent operation.
- → **PATCH FOUR NEW KEVs IMMEDIATELY:** Adobe ColdFusion (CVE-2026-48282), JoomShaper SP Page Builder (CVE-2026-48908), Langflow (CVE-2026-55255), Joomla! Page Builder (CVE-2026-56290). Apply vendor patches per CISA guidance; audit for exploitation since ~29 June.
- → **CONTINUE SHAREPOINT / SIMPLEHELP REMEDIATION:** Both KEVs from last cycle remain unresolved risks with passed federal deadlines. If not yet actioned, treat any unpatched, internet-exposed instance as compromised.
- → **DO NOT AMPLIFY UNVERIFIED MCCONNELL HEALTH CLAIMS:** Treat the "braindead" claim as unconfirmed per this cycle's Verified Status assessment. Rely on official statements and direct-contact reports from named officials only.
- → **SENATE-CONTINUITY SITUATIONAL AWARENESS (NO ACTION REQUIRED):** Monitor Senate leadership/committee dynamics following Sen. Graham's death and Sen. McConnell's extended absence, particularly any effect on NDAA/appropriations timelines during a narrow-majority period.
- → **NJ / NORTHEAST OPERATORS — DELANEY HALL:** No change from last cycle. Strike remains reportedly ended; underlying conditions dispute and litigation remain active. Maintain awareness of Doremus Ave vicinity.
- → **ICE-FACILITY-ADJACENT OPERATORS NATIONALLY:** Five other ICE facilities (Tacoma WA, Alvarado TX, Adelanto CA, Phillipsburg PA, Baldwin MI) have active or recent hunger-labor strikes — continue treating as a national pattern.
- → **FIFA WORLD CUP HOST-CITY OPERATORS:** Semifinal round underway; final 19 July at MetLife Stadium. Maintain standing posture; the resumption of open US-Iran combat adds sensitivity around Iran's remaining fixtures and traveling delegation.
- → **FORTINET — URGENT IOC CHECK (STANDING):** 70,000+ confirmed-compromised firewalls remains an active, unresolved intelligence item. Patch, hunt, and rotate all Fortinet VPN credentials if not already completed.
- → **GENERAL:** Report cyber incidents to cisa.gov or IC3.gov; CI Fortify guidance at cisa.gov. Check magnethf.com/reports for any MAGNET S2 flash reports published since this snapshot.
